---

We keep up with the trend of the times, integrate the most advanced design elements at any time, and break through the limitations of tradition.

With modern and simple modeling art, it is just right embellished in the modern style office furniture, reflecting its unique charm.

The countertop is made of 25mm thick "standard" brand particle board texture and matched with 2mm thick high-quality PVC edge banding. The thin edge bevel process is made of high-quality Anshan steel plates. The columns are made of Fenglu brand aluminum profiles. The baffles are made of 1.0mm steel plates. Laser cutting and bending molding are made of high-end steel plates. The new wire-controlled folding mechanism of the universal nylon silent brake wheel has a multi-speed locking function and can be folded at will. It is equipped with a high-end countertop balancer and the combination splicing has high smoothness.

Careful workmanship, professional design, simple atmosphere, each detail has been carefully screened to ensure the high quality of the level.

Through the perfect design, it shows its unique style.
